CLINICAL SKILLS

	Competency					Competency			
	None	Limited	Proficient	Extensive		None	Limited	Proficient	Extensive
BACKGROUND					RADIATION THERAPY (cont)				
Hospital					Intraluminal radiation therapy				
Doctor's office					Intravenous radioactively tagged molecules				
Orthopaedics					I-131				
Surgery					Other:				
Trauma									
Clinic					PROVISION OF TREATMENT TO PATIENTS WITH				
Other:					Anal cancer				
					Bone cancer				
RADIATION THERAPY					Brain cancer				
Ortho voltage radiation treatment					Breast cancer				
Simulation of treatment sites					Bladder cancer				
Cobalt 60 therapy					Cervical cancer				
Strontium 90 therapy					Childhood cancer				
Accelerator with electrons					Colon cancer				
Calculations					Esophageal cancer				
Radiation precautions					Endometrial cancer				
Hyperthermia treatment					Endocrine system cancer				
Linear accelerator (specify types/brands)					Gallbladder cancer				
1.					Hodgkin's and other Lymphomas				
2.					Hypo pharyngeal cancer				
3.					Kidney cancer				
4.					Laryngeal cancer				
5.					Lip and oral cavity cancer				
Superficial radiation treatment					Lung cancer				
Block cutting					Liver cancer				
Geometric parameters					Metastatic squamous cancer				
Patient measurements					Ovarian cancer				
Venipuncture					Oropharyngeal cancer				
Proton beam					Penile cancer				
Neutron beam					Pancreatic cancer				
Brachytherapy wires					Testicular cancer				
Brachytherapy seeds or molds					Uterine cancer				
Brachytherapy rods					Vaginal cancer				
Interstitial Brachytherapy					Vulvular cancer
